

Why Oakwood SQL DBA Managed Services? In response to our clients, our managed services team has established a platform that allows Oakwood Systems to proactively manage and monitor the key applications on which our clients depend.

SQL Managed Services

Backed by Oakwood's broad and deep expertise across the Microsoft stack, clients are able to redeploy resources to focus on other key projects while Oakwood "keeps the lights on." That provides you peace of mind and confidence our experts are constantly managing and monitoring your applications.

SQL Database Managed Services are designed to ensure the health and stability of your SQL Server environment. Our Managed SQL Database service provides 24/7, 365-day system monitoring. We go far beyond traditional monitoring services. Enjoy weekly in-depth health checks, performance analysis and trending to proactively identify issues requiring remediation.
