

## Streamline Data Management and Turn Communication Challenges into Opportunities

After several acquisitions and quick growth from a small and nimble company to a much larger group of properties and brands, Red Lion Hotels Corporation needed to digitally transform.

Using [Dynamics 365](#) and [Microsoft Teams](#), they improved employee connectivity and unified two legacy data management systems into a single, customized platform, addressing data-quality concerns and improving customer satisfaction.

At **Oakwood Systems Group, Inc.**, we realize that technology affects not only companies, but also owners, staff, and customers. To learn how your organization can leverage smart technology to simplify your business and improve customer and employee relationships, [contact us](#) today.
