

## Watch Dog Managed Cloud Services™ | Secure | Managed

Need to better control your Microsoft Azure spend? Find Azure easy to setup, but difficult to manage? Worried about getting a massive bill for resource usage? Or simply want to maximize the investment in your upcoming cloud migration? To give our clients a better solution, Oakwood has created its new Watch Dog Managed Cloud Service™.

In conjunction with our Managed Services team, Watch Dog will ensure that your Azure cloud resources are only used to deliver the services you need – preventing unnecessary charges and fees.

Here are some of the benefits of our Watch Dog Service:

### Benefits

- 24x7 support – 365 per year
- Secured access and management of your Azure resources
- Full monitoring capabilities
  - Including SQL, SharePoint, Office 365, and custom applications
- Single point of contact
- Significantly lower expenses compared to hardware, software upgrades, and lease renewals

With more than 35 years of expertise, Oakwood can help you manage and protect your cloud assets.

Don't worry, the Watch Dog is here for you.
